(54) Title: DUVET COVER

(57) Abstract: A cover for a duvet (D) comprises an underside panel and an upperside panel (16), the underside and upperside panels being joined together along their top edges and part-way along their side edges, and a further panel (14) joined to the bottom edge and part-way along the side edges of the underside panel: the upperside panel (16) is provided, adjacent its bottom edge and side edges, with fastening means (20) to engage complementary fastening means (22) along the edges of the further panel (14). In a modification, the further panel (14) is replaced by a band extending along the bottom edge and part-way along the side edges of the underside panels.
